

Johnson & Johnson is the world's most comprehensive and broadly based healthcare Company, touching the lives of nearly a billion people every day. Our Family of Companies throughout the world compete in consumer, pharmaceutical, and medical devices and diagnostics markets and have the skills and resources to tackle the world's most pressing health issues.

존슨앤드존슨은 전 세계적으로 많은 소비자들의 신뢰를 받고 있으며, 소비재, 전문의약품, 의료기기 및 시력 교정 등 헬스케어(Healthcare) 산업의 선두주자입니다.

금번 저희 계열사인 얀센백신에서 함께 성장할 미생물 품질관리 신입사원을 모집하고자 합니다.

모집분야에 대한 자세한 내용은 하기에 참고 부탁드립니다며 여러분의 많은 지원 부탁드립니다.

- 계열사: 얀센백신 (Janssen Vaccines)
- 포지션: 미생물 품질관리 신입사원
- 근무지: 인천 송도
- 근무형태: 정규직

[Responsibilities]

- Performs routine tests and analyses to assure that products comply with established specifications.
- Carries out simple calculations and prepares documentation that shows the results of tests performed.
- Completes record of inspection results, acceptance, rejection and disposition for entry into log books or computer databases.
- Sends test equipment for scheduled calibration and maintenance. Assists with specialized product/customer quality testing.
- Assists with the implementation of revisions, corrections and changes to test equipment, procedures and methods.
- Logs in defective products returned by customers to determine root causes of failure.
- Observes discussions with quality, engineering and other relevant departments to learn about corrective actions for reoccurring problems.
- Collects and compiles data on reoccurring product defects. Reviews raw material inspection logs and creates list of consistent failures.
- Implements work processes, measurements and performance metrics to identify improvement areas.
- Attends meetings with customers, suppliers and associates to understand standards and expectations.
- Supports process improvement teams. Monitors and scrutinizes internal and external complaints and compiles data to be used in reports.
- Gathers and assembles details on defective products and materials.
